Elliott & Collins Top Talent Show

To the tune of ear splitting yells whistles and hand clapping, "Chuck" Elliott and Lewis Collins, stomped, swayed and bogied their way right up to first place in Malcolm Miller's Talent Scout Show at the Prince Theatre, Tuesday night. The capacity crowd started their demonstration of approval shortly after the boys sat down at the piano bench and started to beat out some of the most rhythmic "bogie" we have ever heard. The applause that greeted them at their finish was a Must for an encore that almost tore the foundations from the building.

Harmon and Kelly, presenting a novelty tap and jitterbug dance won second place. Their presentation was one of the best novelties Malcolm has yet presented.

The bill was the best program of vaudeville that we have seen during any Talent Show presentation. Every act was really a prize winning act, but the audience decisions were clear and the awards went right where the crowd wanted them.

Dickie Atkins gave out with a beautiful voice that filled the entire theatre and drew fine applause on each of his numbers. This young man has the ability that will carry him a long way in the entertainment field if he keeps at it.

Edwina Humphries was one of the cutest, (and the smallest) bit of femininity on the all-star bill. She presented a Hula dance that brought many laughs throughout the act and a fine hand of admiration at the finish.

An act billed as Slap Happy Bones brought laughter and applause with gags and songs.

Mr. Bones, attired in a cutaway green minstrel coat, huge bow tie and the most "eye-catching" yellow shoes this writer has ever seen, could be likened to the immortal Eddie Leonard, one of the top minstrels of his days. This young man had voice, personality and cleverness. Mrs. M. P. Stanley, at the piano, certainly displayed outstanding knowledge of the instrument.

Ray Caldwell, Belle Glade, came in for nice applause. He opened the show with two well rendered numbers. He was a guest star.

Esther Walker, South Bay, was very pleasing in two cute numbers Mrs. Walker came as a spectator and Malcolm invited her to sing.

One of the most charming young ladies to grace the stage of the Prince Theatre was Miss Evelyn Haven, destined for a top place in show business, if she keeps on working, displayed her musical ability at the piano and then came on stage to display vocal ability that drew her a terrific round of approving applause as a welcome guest star.

The elimination contests come to an end next Tuesday and the following week will bring on the Grand Finals.

Mrs. Paul Rardin is visiting her parents, Dr. and Mrs. W. O. Strickland in Glensville, Ga. They will go to Hendersonville, N. C., for two weeks vacation.

Funeral Services For Sheriff's Father

Funeral services for Robert Franklin Kirk, father of Palm Beach County Sheriff John Kirk, who died late Tuesday night at El Paso, Texas, will be held at Springfield, Mo., Saturday or Sunday afternoon, according to word received here. Mr. Kirk, who had been ill for several years, suffered a stroke which resulted in pneumonia.

Sheriff Kirk, who flew to El Paso Tuesday morning, telephoned Mrs. Kirk that arrangements could not be completed until the survivors arrived with the body at Springfield today. Dunn Funeral Home, Springfield, will have charge of arrangements, Mrs. Kirk said.—Palm Beach Post.

State Board Ready To Regulate Power And Gas Companies

TALLAHASSEE—The Florida Railroad and Public Utilities Commission is expanding its facilities and adding personnel preparatory to taking over its new duties in the regulation of privately owned utilities.

The new jurisdiction was granted by the 1951 legislature, and Lewis W. Petteway, general counsel for the commission termed it a "very good law."

Actually, the commission can do little until after September 15, the date set for filing of rates by the power companies.

Under the new law the commission will control rates of not only electric companies but also gas companies.

Mr. Petteway recently returned from a trip that took him to West Virginia, Ohio, Michigan, Illinois, Indiana, and Kentucky, where he has been studying power regulation in those states. He has also started accumulating the technical books and materials needed for the administration of the new law.

One Lake Worth dairy and three ordered to make improvements to Boynton Beach dairies have been meet State sanitary requirements and comply with State regulations by Dec. 1, according to reports filed Monday with the County Commission by Dr. C. L. Brumback, County Health Dept. director.

Dr. Brumback named as the four: Goolsby's Dairy, Mr. and Mrs. W. A. Goolsby, Route 1, Lake Worth, which was requested to "either stop the sale of milk at once or move operations to another location that is approved"; M. A. Weaver, Charles H. Foy and Guy Wachstetter, all Boynton Beach.

The dairies' condition were revealed in a survey made by Dr. Brumback, Dr. John Wells and Dr. Dwight Lichty, local veterinarians. Dr. Brumback's letter to the Commission was accompanied by copies of letters from Lewis T. Smith, Gainesville, State dairy supervisor, to the four dairies.

The Commission did not take any official action on the matter.

The Commission also received a letter from County Agent M. U. Mounts notifying the board of the resignation of Mrs. Mildred J. Michaud as assistant county home demonstration agent.

News Notes From State Capital

TALLAHASSEE — Directorship of the news bureau of the state advertising commission has been given to William M. Wells, former Highlands county newspaper editor and recently manager of the Sarasota County chamber of commerce. He will handle the news and publicity features of the bureau's work under the direction of Acting Director Beverly Grizzard, who is filling the place left by Howe Sadler.

TALLAHASSEE — Time out on parole cannot be deducted from prison time if the person violates his parole and is returned, says the supreme court of Florida. The opinion reversed Circuit Judge A. Z. Adkins, and sent J. W. Lukers to serve out his four-year term for grand larceny.

TALLAHASSEE — All commercial setting of fresh water fish in Florida will halt August 12, or those caught will be violating rules of the Florida fresh water fish and game commission. While Director Ben McLauchlin was holding hearings on charges against fisheries technicians on charges of grafting, the department quickly moved to stop removal of fresh water fish. Trap fishing will be halted August 50, McLauchlin warned, if the bootleg sale of fresh water fish doesn't stop. Residents of north and west Florida have complained for years about the Georgia visitors who bootleg fresh water fish into their own state, using dynamite, nets or any device at hand for gathering large quantities of fish quickly.

TALLAHASSEE — Governor Fuller Warren pointed out that his veto of a 1951 legislative act opening welfare rolls to public inspection saved the people of Florida from having the federal relief funds cut off, as they were in Indiana. The governor said that Florida gets \$62,459,000 every two years from Washington to supplement state money for old age pensions, aid to dependent children and aid to the blind. The federal rules require that the names of those who get this aid be kept secret. In a report this week, State Welfare Director Sherwood Smith said that 4195 fewer persons got state aid in July than in June. Of these, 4,021 were dependent children removed from the rolls because of failure of the parent to comply with new 1951 provisions of the welfare act.

TALLAHASSEE — Florida, which offers little information to tourists about its capital city, may soon have a uniformed guide in the capitol itself. Secretary of State R. A. Gray, in a cabinet session which took note of the large tourist movement through the city, said his fellow officials need not be surprised if some day he provides such a service, even though no money has been appropriated for it.

TALLAHASSEE — The state has made a cautious entrance into the field of spending the \$6,650,000 for construction authorized by the 1951 legislature. The cabinet has okayed \$376,800 for the improvement of state hospital facilities at Arcadia, to construct a ward for insane persons and duplex apartments for employees. An additional \$100,000 will be spent to help the

TALLAHASSEE — Reductions in fire insurance rates ranging as high as 48 per cent on some Florida apartments have been approved by J. Edwin Larson as insurance commissioner. These reductions apply to apartment houses with five or more units, all dwellings for two or more families, and tenant-occupied single family frame houses. The rates were proposed by the Florida Inspection and Rating Bureau.

TALLAHASSEE — Attorney General Richard W. Ervin this week gave his opinion on the following general subjects:

MILK — Milk commission must withdraw from market area upon request from majority of producer-distributors.

THEATRE — Whether booking agent comes under private employment agency law depends upon whether he does business in state.

VOTING — Under new election law, voting machine counties must pay not more than \$5,000 to investigate fraudulent registrations and illegal voting.

INSURANCE — Lawyers Title Guaranty Fund may voluntarily deposit \$100,000 with the state insurance commissioner to protect policy holders.

Ervin Gives Ruling On State Milk Control

TALLAHASSEE — Attorney General Richard W. Ervin has advised the Florida Milk Commission that it must withdraw its supervision from any marketing area if a majority of the milk producers and distributors in that area request it.

The attorney general's ruling was made in answer to an inquiry from Milk Commission Administrator L. K. Nichols, Jr., of Jacksonville.

Ervin said that in order to halt the commission's regulatory practices in any given area, a majority of the producers and producer-distributors who produce at least half of the milk in the area must make written application for such withdrawal.

The commission regulates the

state's milk supply and fixes maximum and minimum wholesale and retail prices of milk.

Cinematic Chapter

By Malcolm Miller

Another capacity crowd greeted the Talent Show last Tuesday night when Evelyn Haven, one of the loveliest bundles of youth, charm and artistry, was awarded the first prize for her piano offering and her song, which captivated the house. Ray Caldwell, a good looking lad with a natural, pleasing voice, sang his way into second place with two well rendered songs. The entire bill was good and the show, moving along with precision, was warmly received by the crowd. Increasing attendance is indicative of the approval of Talent Show's by the general public. Two more weeks remain of the eliminations and then the Grand Finals when 14 acts will compete for three Grand Prizes. Going out Hollywood way, there is a newly arrived heiress at the Anne Baxter-John Hodiak household and the little queen is to be christened Katrina. Its all John can do to tear himself away from home long enough to fulfill his picture schedules. The red-headed fire ball and her musical mate, Desi, (sometimes called "Dizzy") Arnaz, have named their infant daughter Lucie Desiree. The Academy Award winner Broderick Crawford and his charming wife state that whether the expected is a boy or a girl "it will be named Kelly. Robert Merrill, latest "great voice" to be recruited from Broadway to films, still practices singing at least two hours a day and vocalizes on the set between scenes. I'll bet that gets pretty tiresome to his co-workers. Shapely Corinne Calvet offer this solution to Hollywood's

tourist problem. She says why not construct small stands on sound stages and separate them by glass partitions from actual movie sets. See you at the movies—Mal.

Dan McCarty Will Be A Candidate

TALLAHASSEE — Gubernatorial gossip, speculation and rumor mount as the time draws near when the next crop of candidates for Governor may be expected to emerge. But at this point the only man actually running is Dan McCarty of Fort Pierce, gubernatorial runner-up in 1948.

Final decisions remain to be made by State Senator Henry S. Baynard, of St. Petersburg; Comptroller Clarence M. Gay; former U. S. Senator Claude Pepper; Road Chairman Alfred A. McKethan; Senate President Wallace Sturgis; State Senator Leroy Collins, of Tallahassee; former Governor Mil-

lard F. Caldwell, and former Rep. Brailley Odham, president of the Florida Junior Chamber of Commerce. All of these are at least thinking of running.

The name of Alto Adams, State Supreme Court Justice, is also in the wind, although not heard with the same frequency as the others. Former Congressman Peterson's name was heard a few months ago but reports are current that he is inclined against running.

Mrs. Lucille deMoya of Lake Worth is the guest of Mr. and Mrs. E. F. McIlwain in Pahokee this week.

Mr. and Mrs. C. G. Johnson and children have returned home after a week's visit with friends in Tampa.

Christian Science Group Of Canal Point

The recognition of God as infinite Spirit will be made clear to the congregations in all Christian Science churches next Sunday. The Lesson - Sermon is entitled "SPIRIT".

A verse from Zechariah provides the Golden Text: "Not by might, nor by power, but by my spirit, saith the Lord of hosts" (XZech. 4: 6).

Included in the Bible readings is the following from Psalms (93: 1 to 3): "The Lord reigneth, he is

clothed with strength, wherewith he hath girded himself."

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "The three great verities of Spirit omnipotence, omnipresence, omniscience, — Spirit possessing all power, filling all space, constituting all Science, — contradict forever the belief that matter can be actual" (p. 109).

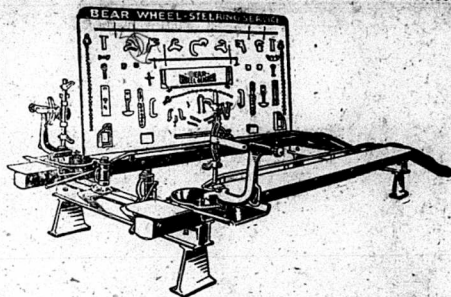

"The central fact of the Bible is the superiority of spiritual over physical power" (p. 131).

Buccaneer Trail Receives Publicity

FERNANDINA—The Buccaneer Trail, northeast Florida's new coastal highway, received recognition this month with a six-page feature spread in Scenic South, Standard Oil company's beautiful pictorial publication.

The spread features in pictures the coastal area between Fernandina and Mayport which is so rich in historical background. Pictures of some of the old buildings, some dating back to the earliest Jesuit priests to come to America are shown, as well as some of the later buildings of historical significance. Highway scenes and Fort Clinch State Park pictures complete the layout.

Development of the Buccaneer Trail began in 1946, and it was opened to the public in the fall of 1950. Featuring a completely new road through the historical region from Fernandina to Mayport and ferry service across the mouth of the St. John's River, the route now has become popular and is heavily traveled by those seeking to bypass the congestion of Jacksonville or those who are interested in the history of the region and its beauty. It is operated as a toll road.

Yes sir, that's what you'll say at your potato harvest if you've protected your crop from the damage caused by soil borne insects. When chlordane is applied properly, it gives excellent control of wireworm and other soil borne insects that annually ruin many potato crops. So make sure that your insecticide contains chlordane—the really effective insect toxicant.

For further information see your local dealer or consult your county agent for proper recommendation.

Chlordane controls household insects, too!
